Dear sir,

A necessary stamped /return post card was inadvertently omitted from my application at the time I submitted my patent application. This card is a check-off 'List of Documents' required for the application package, and would to be return-mailed to me (the applicant) when the patent examiner completed checking all these documents.

The patent application was Express Mailed 9/18/03 and the tracking code number is ER 408979726 US. It would be appreciated if this post card could be included with the documents, in your files, at your newly logged location.

Yours sincerely,

**Jonas Browne
